

ORBIT Gesellschaft für Applikations- und Informationssysteme mbH

Headquartered in Bonn, ORBIT has been an IT service provider for customized system and software solutions since 1985.

We advise medium-sized to large companies in all matters relating to IT. We design IT concepts, develop, customize and implement software and deliver many other services as well – always accompanied by our professional project management.

ORBIT also supports the expansion and renewal of telecommunications infrastructures. In doing so, we test and validate products and services on behalf of our customers.

Close collaboration with selected vendors guarantees the quality of our innovative services and solutions.

ORBIT is an independent operator that belongs to Deutsche Telekom Group.
